KIS IT SERVICES

OUR FEATURES

INVENTORY MANAGEMENT

Manage your stock in real-time, avoid shortages, and keep your inventory fully under control – all from one easy-to-use app.

01.

SALE BILL

Easily create and manage all your sales invoices with GST, discounts, and multiple payment options. Keep track of every sale, customer details, and product movement — all in real time.

02.

SALE RETURN

Easily handle product returns from customers with accurate stock and payment adjustments. Generate sale return bills in seconds and keep your inventory and accounts up to date.

03.

PURCHASE

Record all your purchase transactions quickly and accurately. Track supplier details, payment status, and stock updates — ensuring smooth inventory and expense management.

04.

PURCHASE RETURN

Seamlessly record and manage returned goods to suppliers. Adjust stock and payment details instantly with accurate purchase return entries — keeping your inventory and accounts in sync.

05.

OUR FEATURES

06

Bill WhatsApp and SMS

Send invoices directly to your customers via WhatsApp and SMS — instantly and for free. Keep your clients updated, reduce manual follow-ups, and maintain professional communication effortlessly.

07

Digital Sign

Add your digital signature to invoices, bills, and official documents directly from the software. Ensure authenticity, build trust, and maintain a professional brand image — without printing or scanning.

08

Contra Entry

Easily record Contra entries for transactions between your own bank accounts or between cash and bank. Maintain accurate financial records without confusion — all in a few clicks.

09

Journal Entry

Record journal entries for all non-cash transactions, adjustments, and internal transfers. Maintain complete and accurate accounting records for better financial reporting and GST compliance.

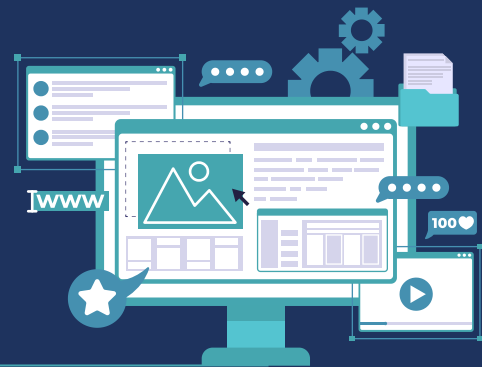

10

Party Balance

Keep track of what your customers and suppliers owe you — or what you owe them. With Party Balance, you get a clear view of all outstanding amounts, past transactions, and payment history in one place.

OUR FEATURES

PARTY LEDGER

Maintain a detailed Party Ledger for each customer and supplier. View all transactions, outstanding balances, payments, and returns in one place — making account tracking simple and transparent.

11

12

PURCHASE ORDER

Create and send professional purchase orders to suppliers in just a few clicks. Keep track of ordered items, expected delivery, and payment terms — all in one place for smooth procurement.

13

E -INVOICE BILL

Easily generate and print E-Invoices that are GST-compliant and ready for sharing. Download or print with a single click — complete with QR code, GST details, and digital signature if needed.

GST INVOICE

14

15

E WAY BILL

Generate E-Way Bills directly from the software with all required transport and invoice details. Stay compliant with GST rules and avoid delays during goods movement — quick, accurate, and hassle-free.

OUR FEATURES

QRCODE/BARCODE PRINT

Generate professional Proforma Invoices before final billing to share estimated costs with your customers. Customize details, add terms, and convert to final invoices in just one click.

16.

SCAN QR/BARCODES WITH MOBILE OR SCANNER

Easily scan product barcodes or QR codes using your mobile camera or external scanner. Speed up billing, reduce manual errors, and manage inventory more efficiently — all with a quick scan.

17.

BANK RECONCILIATION

Quickly match your bank transactions with your records using Fast Bank Reconciliation. Identify mismatches, avoid errors, and keep your books accurate — saving time and effort every month.

18.

OPTIMIZED FOR DESKTOP, IOS, AND ANDROID

Access your business data anytime, anywhere! Ebook Software works seamlessly across Desktop, iOS, and Android devices. Your data stays synced and secure — so you can manage your business on the go or from your office.

19.

REPORTS SECTION

01.

SALE BOOK

Maintain a complete record of all your sales with the Sale Book. View date-wise sales, customer details, invoice amounts, and payment status — all in one organized place for easy tracking and reporting.

02.

PURCHASE BOOK

Keep a complete record of all your purchase transactions with the Purchase Book. View supplier-wise entries, dates, amounts, and payment status — ensuring clear tracking and better expense management.

03.

PURCHASE ORDER BOOK

Keep track of all your purchase orders in one place with the Purchase Order Book. Monitor order dates, supplier details, status (pending/received), and streamline your procurement process effortlessly.

04.

PERFORMA INVOICE

Generate professional Proforma Invoices before final billing to share estimated costs with your customers. Customize details, add terms, and convert to final invoices in just one click.

05.

PARTY HISTORY

View complete transaction history of any customer or supplier in one click. Party History shows all sales, purchases, payments, returns, and balances — helping you manage relationships and accounts better.

Reports ✦ SECTION

06

STOCK REPORT

Get a clear and detailed Stock Report at any time. View available stock, low stock alerts, item-wise quantity, and value — helping you make informed purchase and sales decisions.

STOCK LEDGER

Easily track every product's movement—sales, returns, transfers—with date-wise stock details and balances.

07

ITEM WISE REPORT

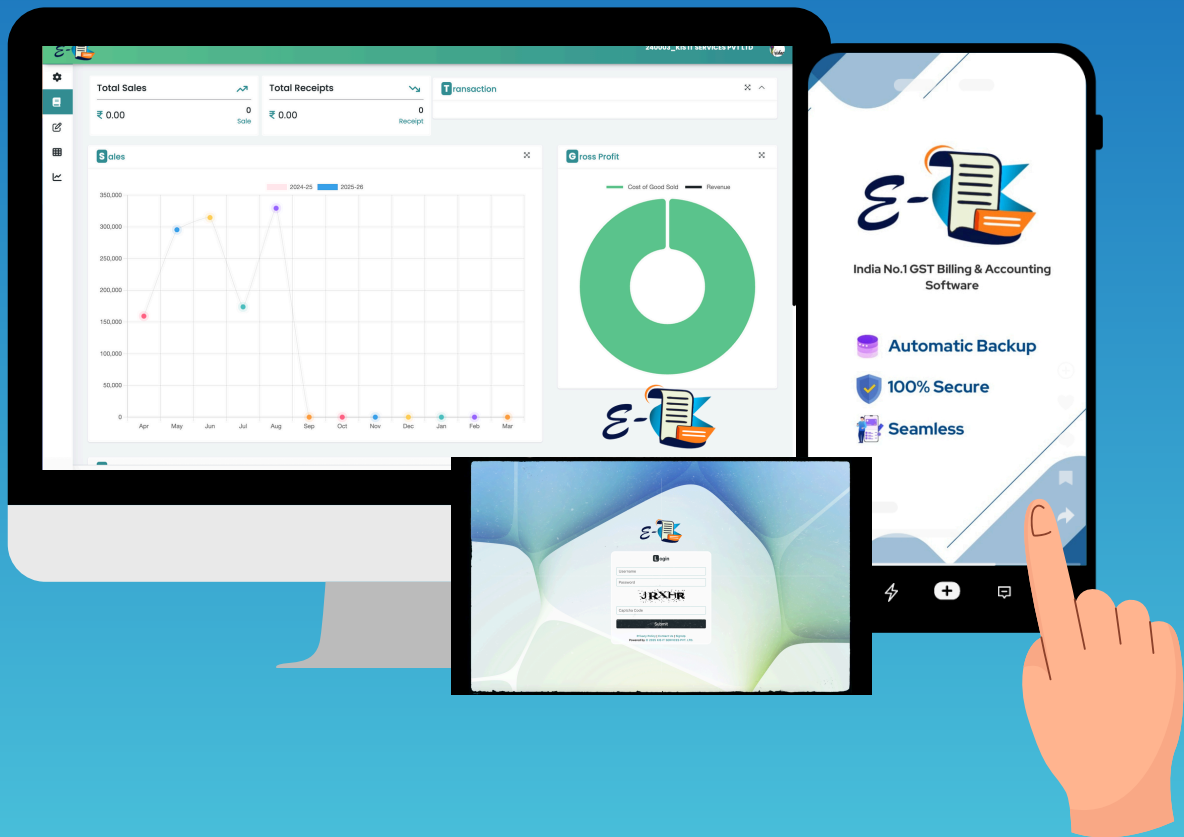

Get detailed reports for each item sold or purchased. Track quantity, value, and movement of every product — helping you analyze performance, manage stock, and make better business decisions.

08

Note: Customization options are available to suit your specific business needs—whether it's feature adjustments, report formats, or workflow changes, we tailor the software as per your requirements.
